Preamble

We, the founding members of the **African Democratic Alliance for Freedom and Progress (ADAFP)**, representing democratic, liberal, and progressive political movements across the African continent, gather to establish a unifying platform dedicated to strengthening democratic governance, fostering liberal and progressive ideals, and supporting one another in our shared pursuit of electoral success, justice, and good governance.

Guided by the enduring ideals of **Pan-Africanism**, as envisioned by the African Union, and inspired by the democratic principles enshrined in the **African Charter on Democracy, Elections, and Governance**,

Reaffirming our commitment to the core values of good governance and democracy, human rights, political and economic freedom; justice, and the rule of law, for sustainable development,

Recognizing that cooperation among like-minded forces is vital to achieving a prosperous, stable, and united Africa that truly serves its people,

Determined to provide mutual support, share resources, and exchange knowledge to empower our movements to win elections and effect meaningful, positive change across the continent,

We hereby proclaim the official formation of the **African Democratic Alliance for Freedom and Progress (ADAFP)**.

Africa at a Crossroads

Africa stands at a historic crossroads. Facing deep institutional fragility, persistent inequality, and the urgent need for inclusive growth and accountable leadership, the continent demands a new political and economic horizon.

Today marks a turning point for democracy and governance in Africa. The **African Democratic Alliance for Freedom and Progress (ADAFP)** is established by dynamic political parties, elected officials, emerging leaders, and civic organizations united by a common vision: **an Africa that is open, prosperous, democratic, and just.**

This new pan-African platform represents a **Third Way** one that harmonizes **individual liberty and innovation (Liberalism)** with **social justice and equity (Progressivism)**.
